“ I had the pleasure of working with Christelle for 8 years. I loved that she was the only one that called me "Cocoleenee" and always wanted to know how me and my family were doing. I also enjoyed attending her Christmas parties and the fact that she always included my elderly mom in those parties. I love and miss her dearly. Christelle loved God and that's the best memory I have of her.

“ From the moment we first met, it was evident that you possessed a grace and style that set you apart. Your elegance was not just in how you carried yourself but also in the kindness and warmth you extended to everyone around you. Your grace was a constant reminder of the beauty that exists in both simplicity and kindness. Your vibrant and warm personality had the remarkable ability to infuse every gathering with an enchanting touch of magic. Your innate talent for creating themes and color schemes turned ordinary moments into extraordinary celebrations. The meticulous thought and care you put into every detail reflected your creativity and the profound love you held for those close to your heart.

As we reflect on the three decades of friendship we were fortunate enough to share with you, let us remember the countless moments of joy, laughter, and support. You are not just our friend; you are our sister, a beacon of light in our lives, a source of inspiration, and a testament to the beauty of the simplest gestures.

Your infectious smile, unwavering grace, and the vibrant colors you brought into our lives will forever be etched in our hearts. Your commitment to our sisterhood and the high school girls' group, Guess Girls, exemplified your dedication to creating spaces where bonds could flourish and memories could be woven.

As we say our final goodbyes, we celebrate the life of a remarkable woman who graced us with her presence, inspired us with her kindness, and made the world a more beautiful place.

Rest in paradise, dear Chrissy. You will be dearly missed but never forgotten.

With love and remembrance,
Laura Fuller Renaud
