“ My heart hurts. You was so funny an so welcoming an loved your family. I'm so sorry that this place did not deliver on taking care of u the way you deserved. This company needs to apologize to our family an to his children taking that moment away from them to say goodbye to there father. May you rest in heaven Tio.

“ Love so much Tio can't believe all this that happened on 11-15-2025 we could not bury you and say goodbyes, my heart was shattered. I could not understand how someone can Make such a huge mistake, but I understand that mistakes are made, but no one apologize to my cousins or to any of us you were dearly loved by so many that couldn't be there on your day to bury you since they buried you on Monday instead of Saturday I hope the owner of this funeral hom takes responsibility and apologize Say some kind words to our family, my cousins and everyone else that was there you were such a happy person always making us laugh and your voice for praising. The Lord was amazing. You will forever be missed and I mean forever.

Aida S Batrez - November 19, 2025 at 02:24 PM

“ *Tia Paulo was a much loved Husband, father, son, brother, uncle, cousin, friend and God fearing man. Our family is huge, loving and active in each other's lives. The fact that hundreds of us traveled to pay our last respects but were denied that right is not just despicable but soul crushing. My Tio deserved so much more than he was offered in his final moments of indignity. My heart is broken at the loss of him, SHATTERED at the disrespect. We love you Tio. I'm so so sorry your final rest was not obtained. □*

“ *It is with great sadness that I write my comment and I hope this funeral home pace for the wrongdoing in my uncles burial because we didn't get to bury my uncle due to their negligence of not communicating things right with the cemetery and we were unable to lay Paolo A Sanchez To rest I hope my family gets a refund for the wrongdoing of this funeral home. My uncle will be very dearly missed. He was loved by many people and it was unfair to all his family that came out from different places to come and celebrate his life and we couldn't marry him, still I am in tears and unable to comprehend how such a wrongdoing to place that day and the people that were there from the funeral home instead of putting my uncle or taking him back to the funeral home. They put them in the hurst and left them there without it being turned on while they sat and ate everything was OK,, We didn't get to be there for my uncles Burial because of their negligence*
