I just can't believe this happened before I got to see you after seeing you everyday to being locked up for a yr to my last days on my way to see you I was so close almost there.. my heart hurts everyday I love you so much and I miss you so deeply. “ Woody, we first met you in 2019. The winter was cold and we were huddled up in your cozy Ford Focus, having a blast just sharing stories and life experiences. It became a friendship that lasted til the day you left us. Our friendship was solid, never once did I question it. You were so positive, I loved your sense of humor, we ALWAYS had fun. I will never forget the way your eyes twinkled when you smiled or your dimples when you smiled. Thank you for your beautiful heart and kindness, til we meet again my friend..

“ Woodrow my brother. We met working in the hot Texas sun together and I admired your work ethic. Hard at it when at work and smiled all night long. Always good for a laugh and never had to worry about my back. A true friend and a heart of gold. Dammit bro I'm gonna miss you till I get to see you again. Until then my slightly darker skinned brother (as you would say)....

“ My deepest condolences to the Grants. Woody has held a place in my heart for over 26 years and the father of my son Noah. Due to medical reasons I lost contact with him in 2009. I spoke to him often hoping and praying he could find peace and fight his demons. When I received the news of his passing my heart hasn't stopped aching for his you all and his children. Noah, sadly, doesn't remember him. I do so wish he could've known his heart.

“ Woody, the road traveled has navigated us thousands of miles away from Georgetown, SC, but the love we share as friends will never die. Its impossible to expound upon the many memories. However, allow me to say, "Thank you God for sending Woodrow E. Grant my way." Our story is inseparable and our foundation was solid. We were raised by a village!. I could never do justice in sharing a memory or two. You weren't just a friend, you were my brother! I love you Woody. You will forever hold a special place in my heart. True friends never die, they simply live on through the memories shared. For us, its carved in laughter and childhood mischief. Dory Hill babies 4EVER! SIP, my brother!
